

Learnings from Open Data INcubator for Europe (ODINE)

@odincubator

```
- KAS - (ODINE company),
- Alexander Pankratov - (ODINE company),
- - - - (external evaluator) and ODINE companies, moderator @OKFDE
```

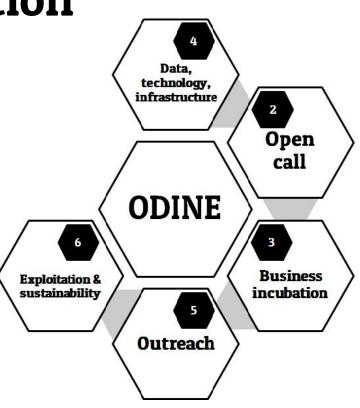

theguardian

Outline of the presentation

- The incubator
- Journey so far
- Lessons learnt
- Ecosystem, partners & cooperations
- TL;DR
- great , unique programme (ask the companies)
- Ecosystem, ecosystem (civil societa, companies, govs)

Goal of ODINE:

establish an industry-focused ecosystem of open data startups and SMEs in Europe

Funding for EU SMEs

- Projects of 6 months
- Accelerate business ideas centred around Open Data

How we evaluate

Process

- Two external experts
- Shortlisted applicants invited to online interview (20 minutes)
- Feedback for all applications
- Notifications within one month from submission

Criteria

Idea

- Strength and novelty of the idea
- Usage and/or creation of open data

Impact

- Value proposition and potential scale
- Market opportunity and timing
- Triple bottom line impact (social, environmental, economic)

Team and budget

- Knowledge and skills of the team
- Capacity to realize the idea
- Appropriateness of the budget to realize the idea

Criterias - Triple impact

- Social
- Enviromental
- Economic

aka People, Planet, Profit.

Open data at it's core, use, re-use, contribution

Services

Tracking

- Mechanism for performance measurement
- Progress reports,
 Biweekly briefings and
 Milestone reviews

Training & Advice

- Personalised training and advice
- Open data training provided by ODINE consortium and partners

Mentorship

- Experienced mentors that support their development
- Curated personalised matchmaking

Networking

 Consortium will facilitate networking via the ODI Summit and the EDF, online networking and peer paring activities

Others

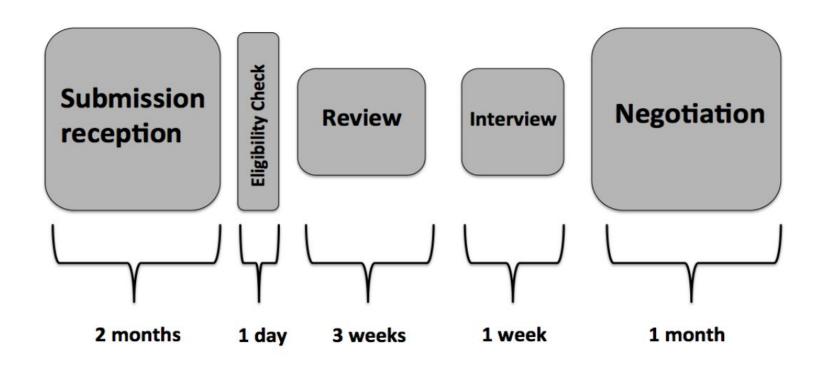

- Global footprint via Internationalisation
- Offers/perks from various industry partners
- Space at a cost

48 companies & projects

See the list at:

https://opendataincubator.eu/companies/

Also ask the one present at IODC16 openoil, askhelmut, opengazette, urbandataanalytics, enviroment systems,

(sorry we are running short on time)

What worked well

- Agile services and processes
- Open by default for running the incubator (tools, info ...)
- Assigned ODINE advisor as first point of contact
- **Bespoke support** to meet individual needs
- Human interaction
- Good balance of commitment vs freedom

Events

Objectives

- Promoting the call
- Presenting incubated companies
- Fostering the EU open data ecosystem

Events

pioneers, startup camp, CEBIT, re-publica, CCC, open data day, PDF, heureka, startup OLE, south summit, 4FYN ...

opentech, EU startups conference, future everything, semantics conf, open belgium ...

ODI Summit, Berlin events EDF 2015 & 2016, www2015 infoday

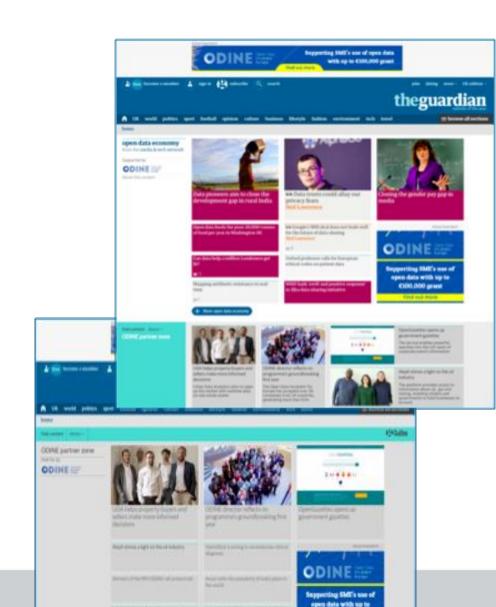

theguardian

Open data economy

27 independent articles published

ODINE partner zone

40 ODINE related articles including winners profiles, partner interviews and programme announcements.

Opportunities for improvement & challenges for the call itself

- No **awareness** using open data
- Not applying because "afraid" of EU projects paperwork
- Variety of quality from the proposals

Opportunities for improvement

- Format to track progress was admin-intense
- Keep track of progress remotely felt impersonal
- Spotting gaps in companies' technical knowledge was hard
 - Brought in mentors to do technology 'health checks'

Challenges

- Run virtual incubation rather than in-house
- Optimise the fixed acceleration length
- Support scalability in a short timeframe
- Access to qualitative data
- Accommodate very diverse needs (verticals, stages, ..)
- Startup lessions from FINODEX by Alberto Abella
 @aabella will be at his blog http://gobernamos.com

Lessons learnt

Incubator

Journey so far

Lessons learnt

Being funded by ODINE provided credibility and opens lots of doors

The focus on **open data** was a **USP** for ODINE incubator

Sales cycle with some customers is longer due to lack of **trust**

Peer-to-peer support is challenging given that companies operate in different sectors and markets

What problem SMEs are solving for their **customers**

What problem **open data** solves for the **company**

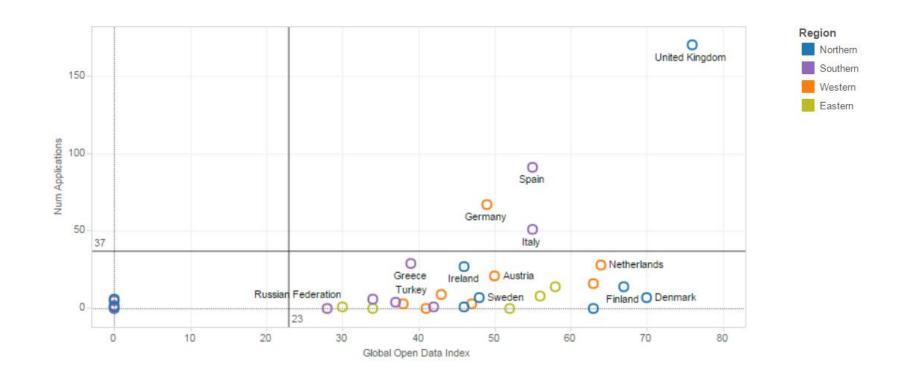

- Reduce SME's costs
- Reduce client cost
- Solidify value proposition
- Drive new partnerships
- Strengthen the brand
- Increase transparency
- Foster innovation

Defining the **value** of open data early is key

There is a correlation between SME's data literacy and how developed is the open data ecosystem in their country

Association between Open Data Index and number of ODINE applications.

Countries with more applications to ODINE have also a high score on Open Data Index.

Ecosystem

- Encourage to provide open data back
- Join combined forces

Ecosystem

- Deutsche Bahn partnership
- Startupbootcamp /seedcamp (mentors, companies)
- KAS study economic impact & open data lobbying
- VC1991 open data in Ukraine
- TSB Berlin / Vienna open data push & companies
- Finodex / Fiware / welcomestartup / EIT 2015
- EU data portal / eudeco / apps4eu
- GTEC / index
- & more to come

Ecosystem - Implisense / KAS / DB

For German open data law!

ODINE-Startup Implisense

- Berlin-based, 9 employees, 3y old
- venture capital: High Tech Gründer Fonds
- Predictive Analytics for B2B Sales Automation in Germany
- Look-alike Scoring for Generation of In- and Outbound Leads
- SaaS and DaaS, API
- Big Data Index based on Public and Open Data, e.g. company register data, company websites and company news, industry data, prospectively geo-data

European Company Explorer Platform (ECEP)

- New Use Case: Trend Monitoring, "Google Trends for Company Properties"
- New European Market: UK
- Index compiled of open company register data matched with company websites
- MVP: API for open trend monitoring
- ecep.implisense.com

European Company Explorer Platform (ECEP)

- Reduced Development Time: from 9 to 2 months for creating a customized index of company register data
- Large Enterprise Leads from Finance and ICT
- First Key Account and First Revenue from Trend Monitoring
- Index Capable of First Analysis
- First Requests from Open Data Investors

Lessons Learned from ECEP

- easy to apply, few bureaucracy
- focus on business development
- concise and crisp reporting
- open data awareness

Lessons Learned from Open Data in UK

- restricted coverage and depth of relevant open data
- lack of political coordination and incentivization, federal system
- closed data favour outdated business models
- large enterprises will play an important role in fostering the provision of open data

Open Data in Germany

Between Economic Projections &

The Political Framework

4th IODC

Madrid. October 6-7, 2016 Global goals, local impact

Open Data & Konrad Adenauer Foundation

- 1. Increase Transparency and Trust in the Politics
 - 2. Improve Our Business Environment
- 3. Open Data and Open Gov. on the Political Agenda
 - 4. More Pragmatic Approach in the Data Policy

KAS & Open Data – Our Products:

OPEN DATA. THE BENEFITS

Handlungsempfehlungen für eine zukunftsorientierte

Datenpolitik

Aus den empirischen Ergebnissen im Rahmen der Studie zum volkswirtschaftlichen Potential offener Daten für Deutschland "Open Data. The Benefits" sowie aus den Ergebnissen der gleichnamigen Fachkonferenz am 10. Dezember 2015 lassen sich folgende Handlungsempfehlungen ableiten:

1. EINDEUTIGER POLITISCHER AUFTRAG IST ZWINGEND ERFORDERLICH

http://www.kas.de/wf/de/21.164/

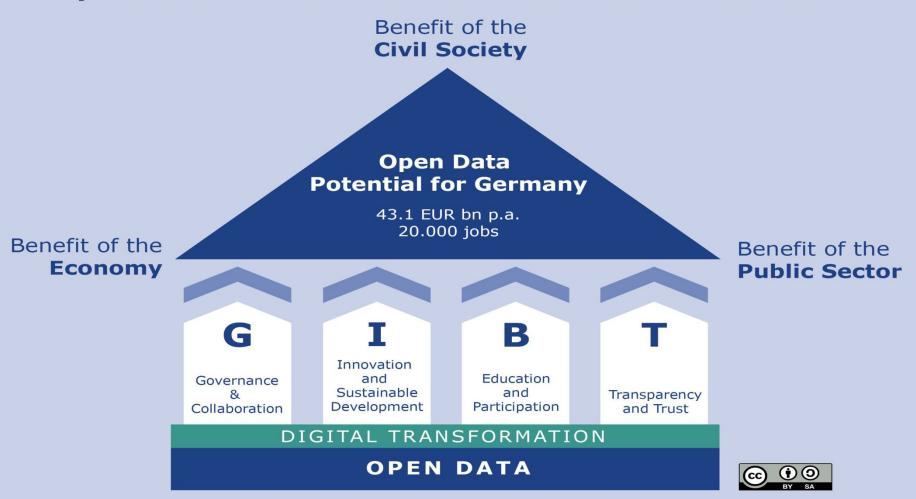

Estimation of the Economic Potential of Open Data for Germany

- ➤ Based on Large Set of Existing Studies
- Ambitious Scenario: A Potential of 43.1 bn EUR p.a.
- & 20.000 New Jobs (open by default)
- Currently: Isolated "Island" Approach a Potential of 1.6 bn EUR
- ➤ Move Towards a National Open Data Ecosystem

Open Data as a Driver of a Social Transformation

Our Open Government and Open Data Guiding Priniciples

- ➤ Open Data is a Leadership Issue
- ➤ Clear legal basis (Induce New Culture)
- ➤ Quantity and Quality of Data Does Matter

Where we would like to go further...

- ➤ Provide a clear legal basis for OD in Germany
- > "We will propose a Open Data Law" Chancellor Merkel in
 - the German Parliament on September 7th 2016
- ➤ Shift From a Target Culture to a Data Culture
- ➤ Data Literacy

Partnership Deutsche Bahn

- Zukunftscamp Jul '15
- Open data strategy Aug '15
- Open data elevator project
- Open data portal Nov '15
- 4 x Hackathons '15 & '16
- mindbox / DB accelerator
- ODINE companies (mycitytree, contagt, ...) '16
- meetings SMEs, startups & regional transport

One of the biggest German company as showcase to open data to SMEs and startups
